CZAR MARCHES ON BERLIN, MENACING BRESLAU, WHILE GERMANS HELP AUSTRIANS

Austrians Reported Evacuating Cracow-Kaiser's Troops Reinforce Franz Josef's Defeated Legions West of Rawa.

LONDON, Sept. 10.-A despatch to the Exchange Telegraph Company from Rome says:

"Despatches from Vienna state that the advance guards of the Russian centre are marching toward Berlin "The Russian troops have invaded Silesia and the cap

ture of Breslau is imminent." The Russian right army is now in German Poland, one part of it investing Koenigsberg and the other reported advancing between Koenigsberg and Thorn. The huge centre army, the advance guards of which are reported near Breslau, has been helping the left army clear the Austrians out of Poland, and its advance into Silesia and "on to Berlin" is believed to be due to Russia's confidence that the Austrian army has been shattered and that the Czar's left army can take care of what is left.] LONDON, Sept. 10 .- A despatch to the Reuter Telegram Company from

"Consternation prevails at Cracow. The evacuation of the town has begun. The authorities are trying to induce the members of the local rifle

have resigned their memberships because of sympathy with Russia. Others urged that it was useless to suffer the bombardment of Cracov when there was no chance for Austrian success.

A Havas Agency despatch from Petrograd, dated yesterday, says: "A regiment of Cossacks took at Frampol 17 Austrian officers, 415

MRS. CARMAN IS INDICTED FOR FIRST DEGREE MURDER

Bail Is Refused and Doctor's Wife Is Sent to Jail at Mincola—Trial Early in

October.

Mrs. Florence Carman this afternoon was indicted for murder in the first degree by the Nassau County Grand Jury for the killing of Mrs. Louise Bailey in Dr. Carman's office in Freeport. A plea for her admission to ball was made by her attorney, but this was refused by Justice Kelby, and Mrs. Carman was ordered locked up in the jail at Mineola.

Mrs. Carman, although she looked sick and worn, went through the ordeal without a breakdown. She did not speak in court, nor was there a tremor of her body when she was led away from the bar of the court by one of the Sheriff's officers.

The indictment for murder in the first degree supersedes the one for manslaughter found against her by the same Grand Jury two months ago. On that indictment she was released on \$50,000 bail, furnished by two prominent men of Freeport.

Early in the afternoon George Levy, counsel for Mrs. Carman, called District-Attorney Smith on the telephone and asked whether he would "need" Mrs. Carman at Mineola. The answer he received was more or less ambiguous, but Mr. Levy took Mrs. Carman to Minepla without delay, and she remained in a waiting room until the Grand Jury finished its deliberations. She refused then to say anything to the newspaper reporters save CHICAGO-

After the handing down of the indictment Mr. Levy asked for ball for Mrs. Carman, hoping, he said, to prevent her long sojourn in the jail. To this District-Attorney Smith replied that there would be no delay in the trial of the case. He intimated that it would be held in October before a special term of the Supreme Court.

Dr. Carman came into Justice Kelby's court just before the indictment was read to Mrs. Carman by the clerk of the court. He took a seat near her and her eyes constantly sought his face.

London Admits Pathfinder was Sunk by German Submarine-Kaiser Evacuates Alsace-English Recross Marne-War Costs Belgium \$200,000,000.

LONDON, Sept. 10 [Associated Press].—The official press parend has given out the following statement:

"The enemy has been driven back all along the line. Sir John French reports that our first corps has buried 200 German dead and taken 12 Maxim guns. Some prisoners

"Our Second Army Corps has captured 350 prisoners and a battery. The Germans suffered heavily. Their men are stated to be very exhausted.

"British troops have crossed the River Marne in a northerly direction."

American Ambassador Page has notified Washington officially, after conversations with high British officials. that he is convinced Great Britain will never make peace until Germany is "decisively defeated."

The whereabouts of the German battle fleet is a mystery. The Admiralty announced to-night that strong squ rons of battleships and cruisers and flotillas of destri had covered the entire North Sea, including the Bight of Heligoland, yesterday, without locating the enemy.

While it is believed the majority of the German fleet is under the land defenses at Wilhelmshaven, it is considered possible part of the flest has been sent through the Kaiser Wilhelm Canal to Klet and has reinforced the German Baltic fleet. The latter is reported near the mouth of the Gulf of Finland, and it is believed here the Germans are now under

taking an offensive movement against the Russian fleet. Field Marshal French's telegram shows that fighting of the flercest character is in progress, and his statement that the German forces are very exhausted confirms information from other quarters that the counterpattack of the allies has been delivered with such speed and impetuosity that the invaders have been given no chance to recover from the

effects of their rush from the north. Premier Asquith to-day asked Parliament to add another half million men of all ranks to the regular army.

Fremier Asquith said that 439,000 men, exclusive of the ferritorials, joined the army since the declaration of war. In one day, he said, 33,240 men enlisted. The average enistn ent in an ordinary year was 35,000 men.

After the reserves were called out there were 400,000 men with the colors. On Aug. 6 he proposed that an additional half million be recruited, a total of 900,000.

The recruiting was so successful that by Sept. 9 439,000 men had joined, making the total under arms of 839,000. The second half million asked for to-day will bring the total army up to approximately 1,400,000 men.

After a short debate Premier Asquith's motion to iscrease the army by half a million men was unanimou

The Official War Bureau admitted this afternoon that the British cruiser Pathfinder, which was sunk Sept. 6 (Saturday) off the coast of Scotland, was sunk by a German submarine and not by a contact mine, as first reported.

[This is the first time in history a submarine has been used so successfully and shows the danger to which the British fleet is subjected in bottling up the German fleet. The fact that & German submarine could reach the Scotch coast from its Heligoland base, following the raid by two cruisers and two destroy
